

MEHEDI HASAN

Software Developer | CSE (Software Engineering) Final Year

+880 1790-501200 | mhshakib96@gmail.com | github.com/dearNoob | Banasree, Dhaka

PROFESSIONAL SUMMARY

Motivated final-year Computer Science & Engineering student specializing in Software Engineering, currently completing a Software Developer internship at Leotech (PHP/Laravel stack). Hands-on experience building full-stack web applications using React, Next.js, Node.js, and MongoDB. Demonstrated ability to deliver quality software through unit testing (JUnit) and SQA practices. Seeking a junior developer role where I can contribute to production-grade systems and continue growing as an engineer.

WORK EXPERIENCE

Software Developer Intern | Leotech

Feb 2026 – Present

Leotech — Leading software development company in Bangladesh (BASIS & ISO certified)

- Developing and maintaining web applications using PHP and Laravel framework as part of the core development team.
- Collaborating with senior developers on ERP, Education Management modules.
- Writing clean, maintainable code following MVC architecture patterns and company coding standards.
- Participating in code reviews and contributing to backend API development and database design using MySQL.
- Gaining exposure to full software development lifecycle including requirements analysis, development, and testing.

PROJECTS

Swapaholic — TypeScript, JavaScript, React, Node.js, MongoDB

GitHub: github.com/dearNoob/swapaholic | Live: swapaholic.vercel.app

- Full-stack web application built with TypeScript and JavaScript (68.8% / 30.9% split), featuring backend REST API, frontend UI, Docker-based deployment, and CI/CD pipeline via GitHub Actions – backend deployed on render and frontend on vercel.

Smart Calendar — JavaScript, HTML, CSS (with Bangla locale support)

GitHub: github.com/dearNoob/smartCalendar | Live: smart-calendar-omega.vercel.app

- Feature-rich calendar application with notification/alarm system, weather integration, responsive design, and full Bangla language

Tender Management System with JUnit Testing — Java, CSS, Maven, JUnit

GitHub: github.com/dearNoob/Tender-management-JunitTesting-course-cse430

- Academic project (CSE430 - SQA course) demonstrating software quality assurance practices via comprehensive JUnit test suites on a Java-based web application with Maven build system.

TECHNICAL SKILLS

Languages: PHP, Java, JavaScript, TypeScript, HTML, CSS, SQL

Frameworks & Libraries: Laravel, React, Next.js, Node.js, Express.js

Databases: MySQL, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Docker, Vercel, Maven

Concepts: OOP, MVC Architecture, REST APIs, DBMS, Networking Basics, Unit Testing (JUnit), SQA

EDUCATION

B.Sc. in Computer Science & Engineering (Software Engineering)

February, 2022 – May, 2026

East West University, Dhaka

Relevant coursework: Software Engineering, DBMS, Networking, Software Quality Assurance, OOP

Higher Secondary Certificate (HSC) — Science

2020

Cambrian College, Dhaka

GPA: 4.50 / 5.00

Secondary School Certificate (SSC) — Science

2018

Comilla Residential School

GPA: 4.28 / 5.00

EXTRACURRICULAR ACTIVITIES

Volunteer Coordinator & Sub-executive (Logistics) | [East West University Science Club](#)

- Led volunteer teams for large-scale university events including EWU Science Carnival, managing logistics and execution end-to-end.
- Active club member since 2022 — supported event organization, workshops, competitions, and new member recruitment.
